Independent Auditors' Report

The Board of Trustees
State of New Jersey
Teachers' Pension and Annuity Fund:

We have audited the accompanying statement of fiduciary net assets of the State of New Jersey Teachers' Pension and Annuity Fund (the Fund) as of June 30, 2007, and the related statement of changes in fiduciary net assets for the year then ended. These financial statements are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the State of New Jersey Teachers' Pension and Annuity Fund as of June 30, 2007, and the changes in its financial position for the year then ended in conformity with U.S. generally accepted accounting principles.

As discussed in note 1 to the financial statements, the Fund adopted Governmental Accounting Standards Board (GASB) Statement No. 43, *Financial Reporting for Postemployment Benefit Plans Other than Pension Plans* as of July 1, 2006.

Management's Discussion and Analysis and the supplementary information included in the schedule of funding progress and schedule of employer contributions (schedules 1 and 2) are not a required part of the basic financial statements but are supplementary information required by U.S. generally accepted accounting principles. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Fund's basic financial statements. The schedule of changes in fiduciary net assets by fund (schedule 3) is presented for purposes of additional analysis and is not a required part of the basic financial statements of the Fund. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Management's Discussion and Analysis

June 30, 2007

Our discussion and analysis of the financial performance of the Teachers' Pension and Annuity Fund (the Fund or TPAF) financial performance provides an overview of the Fund's financial activities for the fiscal year ended June 30, 2007. Please read it in conjunction with the basic financial statements and financial statement footnotes which follow this discussion.

As a result of the implementation of the provisions of Governmental Accounting Standards Board (GASB) Statement No. 43, "Financial Reporting for Post-employment Benefit Plans Other than Pension Plans" (OPEB), effective fiscal year 2007, the Post-retirement Medical Fund (PRM) of the TPAF is combined and reported as a trust fund in a separate report with the State Health Benefit Program Fund-Local. For comparison purposes, management's discussion and analysis has been updated to reflect this change by excluding the PRM 2006 amounts.

Financial Highlights

2007 – 2006

- Net assets held in trust for pension benefits increased by \$3,590,275,904 as a result of fiscal year 2007's operations from \$30,936,387,231 to \$34,526,663,135.
- Additions for the year are \$6,092,681,944, which are comprised of member and employer pension contributions of \$1,217,757,094 and net investment income of \$4,874,924,850.
- Deductions for the year are \$2,502,406,040, which are comprised of benefit and refund payments of \$2,490,062,113 and administrative expenses of \$12,343,927.

The Statement of Fiduciary Net Assets and the Statement of Changes in Fiduciary Net Assets

This annual report consists of two financial statements: *The Statement of Fiduciary Net Assets* and *The Statement of Changes in Fiduciary Net Assets*. These financial statements report information about the Fund and about its activities to help you assess whether the Fund, as a whole, has improved or declined as a result of the year's activities. The financial statements were prepared using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized in the period they are earned, and expenses are recorded in the year they are incurred, regardless of when cash is received or paid.

The Statement of Fiduciary Net Assets show the balances in all of the assets and liabilities of the Fund at the end of the fiscal year. The difference between assets and liabilities represents the Fund's fiduciary net assets. Over time, increases or decreases in the Fund's fiduciary net assets provide one indication of whether the financial health of the Fund is improving or declining. *The Statement of Changes in Fiduciary Net Assets* show the results of financial operations for the year. The statements provide an explanation for the change in the Fund's fiduciary net assets since the prior year. These two financial statements should be reviewed along with the information contained in the financial statement footnotes, including the required supplementary schedules, to determine whether the Fund is becoming financially stronger or weaker.

Financial analysis

Summary of Fiduciary Net Assets

2007 – 2006

	<u>2007</u>	<u>2006</u>	<u>Increase</u>
Assets	\$ 42,479,670,284	37,029,047,633	5,450,622,651
Liabilities	<u>7,953,007,149</u>	<u>6,092,660,402</u>	<u>1,860,346,747</u>
Net assets	<u>\$ 34,526,663,135</u>	<u>30,936,387,231</u>	<u>3,590,275,904</u>

The Fund's assets consist of cash, securities lending collateral, investments, and contributions due from members and participating employers. Between fiscal years 2007 and 2006, total assets increased by \$5.5 billion or 14.7%. This is due to an increase in the fair value of investments and an increase in securities lending collateral.

Liabilities consist of pension and death benefit payments owed to members and beneficiaries, non-contributory group insurance premiums owed to the Fund's insurance provider, securities lending collateral and rebates payable, and other payables. Total liabilities increased by \$1.9 billion or 30.5% due to an increase in securities lending collateral and rebates payable and in benefits payable to retirees and beneficiaries.

Net assets held in trust for pension benefits increased by \$3.6 billion or 11.6%.

Summary of Additions to Fiduciary Net Assets

2007 – 2006

	<u>2007</u>	<u>2006</u>	<u>Increase</u>
Member contributions	\$ 523,997,776	507,106,612	16,891,164
Employer contributions	693,759,318	101,387,162	592,372,156
Net investment income	<u>4,874,924,850</u>	<u>2,980,763,685</u>	<u>1,894,161,165</u>
Totals	<u>\$ 6,092,681,944</u>	<u>3,589,257,459</u>	<u>2,503,424,485</u>

Additions consist of member and employer contributions and earnings from investment activities. Member contributions increased by \$16.9 million or 3.3% due to normal salary increases and increased membership.

Employer contributions increased by \$592.4 million or 584.3% over last year.

The State made a contribution of \$664.9 million for fiscal year 2007, the first significant contribution to the Fund since fiscal year 1997. The amount contributed in fiscal year 2007 was equal to approximately 57.5% of the actuarially determined amount.

**STATE OF NEW JERSEY
TEACHERS' PENSION AND ANNUITY FUND**

Management's Discussion and Analysis

June 30, 2007

Net investment income increased by \$1.9 billion or 63.5% due to an increase in the net appreciation in fair value of investments.

The total investment return for all pension funds was estimated to be 17.1% compared to 9.7% in the prior year.

Summary of Deductions from Fiduciary Net Assets

2007 – 2006

	<u>2007</u>	<u>2006</u>	<u>Increase</u>
Benefits	\$ 2,453,552,981	2,240,882,442	212,670,539
Refunds of contributions	36,509,132	33,211,383	3,297,749
Administrative expenses	<u>12,343,927</u>	<u>10,389,022</u>	1,954,905
Totals	<u>\$ 2,502,406,040</u>	<u>2,284,482,847</u>	<u>217,923,193</u>

Deductions are comprised of pension benefit payments to retirees and beneficiaries, refunds of contributions to former members, and administrative costs incurred by the Fund. Benefit payments increased by \$212.7 million or 9.5% partly due to an increase in number of retirees. The number of refunds processed increased by \$3.3 million or 9.9%. Administrative expenses increased by \$2.0 million or 18.8%.

Retirement System as a Whole

The overall funded ratios are 76.3% for fiscal year 2007 and 79.1% for fiscal year 2006.

**STATE OF NEW JERSEY
TEACHERS' PENSION AND ANNUITY FUND**

Notes to Financial Statements

June 30, 2007

(1) Description of the fund

The State of New Jersey Teachers' Pension and Annuity Fund (the Fund; TPAF) is a cost-sharing contributory defined benefit plan with a special funding situation which was established as of January 1, 1955, under the provisions of N.J.S.A. 18A:66. The Fund is included along with other state-administered pension trust and agency funds in the basic financial statements of the State of New Jersey.

The Fund's designated purpose is to provide retirement benefits, death, disability and medical benefits to certain qualified members. Membership in the Fund is mandatory for substantially all teachers or members of the professional staff certified by the State Board of Examiners, and employees of the Department of Education who have titles that are unclassified, professional and certified. The Fund's Board of Trustees is primarily responsible for the administration of the Fund.

According to the State of New Jersey Administrative Code, all obligations of the Fund will be assumed by the State of New Jersey should the Fund terminate.

The Fund adopted Governmental Accounting Standards Board (GASB) Statement No. 43, "Financial Reporting for Postemployment Benefit Plans Other than Pension Plans" (OPEB) as of July 1, 2006. Prior to the adoption, the Post-Retirement Medical Fund (PRM) of TPAF was reported as a trust fund and was combined with the TPAF pension trust fund plan. As a result of the implementation of GASB Statement No. 43, PRM of TPAF is combined with the State Health Benefits Program Fund (SHBP) and the Prescription Drug Program Fund (PDP) and reported as Health Benefit Program Funds. Specifically, The SHBP-Local, PDP-Local, and PRM of TPAF are combined and reported as a separate trust fund classified as a cost-sharing multiple-employer plan. Certain amounts included in the TPAF PRM are legally required to be transferred to the SHBP and are recorded as additions and deductions in TPAF PRM and SHBP. All interfund transactions have been eliminated in the financial statements of the SHBP.

Vesting and Benefit Provisions

The vesting and benefit provisions are set by N.J.S.A. 18A:66. The Fund provides retirement, death and disability benefits, as well as medical benefits for certain qualified members. All benefits vest after ten years of service, except for medical benefits, which vest after 25 years of service or under the disability provisions of the Fund. Retirement benefits for age and service are available at age 60 and are generally determined to be 1/55 of final average salary for each year of service credit (as defined). Final average salary equals the average salary for the final three years of service prior to retirement (or highest three years' compensation if other than the final three years). Members may seek early retirement after achieving 25 years service credit, as defined, or they may elect deferred retirement after achieving ten years of service credit, in which case benefits would begin the first day of the month after the member attains normal retirement age.

Members are always fully vested for their own contributions and, after three years of service credit, become vested for 2% of related interest earned on the contributions. In the case of death before retirement, members' beneficiaries are entitled to full interest credited to the members' accounts.

Eligible retirees receiving monthly benefits are entitled to cost-of-living increases equal to 60% of the change in the average consumer price index for the calendar year in which the pensioner retired as

**STATE OF NEW JERSEY
TEACHERS' PENSION AND ANNUITY FUND**

Notes to Financial Statements

compared to the average consumer price index for a 12-month period ending with each August 31st immediately preceding the year in which the adjustment becomes payable. The regular retirement allowance is multiplied by the 60% factor as developed and results in a dollar amount of the adjustment payable. Retired members become eligible for pension adjustment benefits (COLA) after 24 months of retirement.

Chapter 23, P.L. 2002 provided early retirement incentive benefits to State employees who meet specified age and service requirements and who retired within a specified time period that generally extended from February 1, 2002 to July 1, 2002. The incentive benefits include an additional three years of service credit to employees who are at least 50 years of age with at least 25 years of service credit; State paid health care benefits to employees who are at least 60 years of age with at least 20 but less than 25 years of service credit; and an additional monthly benefit of \$500 per month for 24 months following the date of retirement to employees who are at least 60 years of age with at least 10 but not more than 20 years of service credit. For those eligible for veterans' retirement benefit, the incentive is an additional pension of 3/55 of the compensation upon which the retirement benefit is based to employees who are at least 55 years of age with 25 or more years of service credit. Similarly, Chapter 128 and 129, P.L. 2003 provided early retirement incentive benefits to local employees.

Chapter 353, P.L. 2001 provided an increase in the special veterans' retirement allowance and the ordinary and accidental disability retirement allowances. The special veterans retirement allowance increased from 50% to 54.5% of the members' compensation during the highest-paid year of service. The minimum ordinary disability retirement allowance increased from 40% to 43.6% of final average compensation, and the accidental disability retirement allowance increased from 66.66% to 72.7% of the actual annual compensation at the time of the accident. Existing retirees and beneficiaries are eligible for the increases, which was effective October 2001.

Chapter 133, P.L. 2001 increased the retirement benefits under service, deferred, and early retirement by changing the formula from 1/60 to 1/55 of final compensation for each year of service. This legislation also increased the retirement benefit for veteran members with 35 or more years of service and reduced the age qualification from 60 to 55. Existing retirees and beneficiaries received a comparable percentage increase in their retirement allowances. This benefit enhancement was effective with the November 1, 2001 benefit payments.

Significant Legislation

Chapter 103, P.L. 2007, certain parts effective July 1, 2007, provides for the changes contribution rates of TPAF to 5.5% of annual compensation.

Chapter 92, P.L. 2007 implements certain recommendations contained in the December 1, 2006 report of the Joint Legislative Committee on Public Employee Benefits Reform. One recommendation eliminates the 4% fixed rate of interest for loans from the defined benefit plans and provides that the rate of interest will be set by the State Treasurer at a commercially reasonable rate as required by the Internal Revenue Code and permits that an administrative processing fee may be charged for such loans. As such, effective January 1, 2008, the new pension loan interest rate will be 4.69% per year, and an \$8.00 processing fee per loan will be charged. Another recommendation removes language from existing law that permits the State

(2) Summary of Significant Accounting Policies

Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. The Fund is accounted for using an economic resources measurement focus.

The accrual basis of accounting is used for measuring financial position and changes in fiduciary net assets of the Fund. Under this method, revenues are recorded in the accounting period in which they are earned, and deductions are recorded at the time the liabilities are incurred. The financial statements of the Fund conform to the provisions of Governmental Accounting Standards Board (GASB) Statement No. 25, *Financial Reporting for Defined Benefit Plans and Note Disclosures for Defined Contributions Plans*. Employer contributions are recognized when payable to the Fund. Benefits and refunds are recognized when due and payable in accordance with the terms of the Fund.

Investments

The Division of Investment, Department of the Treasury, State of New Jersey (Division of Investment) manages and invests certain assets of seven of the defined benefit plans (PERS, TPAF, JRS, PFRS, CPFPPF, SPRS and POPF). The Division of Investment separately reports the assets, liabilities and net assets of the underlying investment portfolio of the seven defined benefit plans in its Pension Fund report. The Division of Investment accounts included in the Pension Fund report are: Common Fund A, Common Fund B, Common Fund D, Common Fund E, Police and Firemen's Mortgage Program accounts and other investments owned directly by the seven defined benefit pension plans. Common Fund A invests primarily in domestic equity securities. Common Fund B invests primarily in domestic fixed income securities. Common Fund D invests primarily in foreign equity and fixed income securities. Common Fund E invests

**STATE OF NEW JERSEY
TEACHERS' PENSION AND ANNUITY FUND**

Notes to Financial Statements

June 30, 2007

primarily in alternative investments which includes private equity, real assets and absolute return strategy investments. The Police and Firemen's Retirement System includes a mortgage loan program administered by the New Jersey Housing and Mortgage Finance Agency that provides participants with mortgages from the program at rates which are fixed by formula. The law establishing the program provides that the Fund may not sell the mortgages, and no independent market exists for them.

Valuation of Investments

Investments are reported at fair value as follows:

- U.S. Government and Agency, Foreign and Corporate obligations – prices quoted by a major dealer in such securities.
- Common Stock and Equity Funds, Foreign Equity Securities, Forward Foreign Exchange Contracts – closing prices as reported on the primary market or exchange on which they trade.
- Money Market Instruments – amortized cost which approximates fair value.
- Cash Management Fund – closing bid price on the last day of trading during the period as determined by the Transfer Agent.
- Alternative investments (private equity, real assets and absolute return strategy funds) – estimated fair value provided by the investment manager and reviewed by management. Because alternative investments are not readily marketable, their estimated value is subject to uncertainty and therefore may differ significantly from the value that would be used if a ready market for such investments existed. Accordingly, the realized value received upon the sale of the asset may differ from the fair value.

Investment Transactions

Investment transactions are accounted for on a trade date basis. Gains and losses from investment transactions are determined by the average cost method. Interest and dividend income is recorded on the accrual basis, with dividends accruing on the ex dividend date.

Unit Transactions

The net asset value of Common Funds A, B, D and E (Common Funds) is determined as of the close of the last day of business of each month. Purchases and redemptions of participants' units are transacted each month within fifteen days subsequent to that time and at such net asset value.

Dividends and interest earned per unit are calculated monthly and distributed quarterly for Common Fund A and B. Dividends and interest earned per unit are calculated monthly for Common Fund D, and the income earned on Common Fund D units is reinvested. Income earned per unit is calculated monthly for Common Fund E, and the income earned on Common Fund E units is reinvested.

**STATE OF NEW JERSEY
TEACHERS' PENSION AND ANNUITY FUND**

Notes to Financial Statements

June 30, 2007

Securities Lending

Common Funds A, B and D and several of the directly held pension plan portfolios participate in securities lending programs, whereby securities are loaned to brokers or to other borrowers and, in return, the Pension Fund has rights to the collateral received. All of the securities held in Common Funds A, B and D, and certain securities held directly by the pension plans, are eligible for the securities lending program. Collateral received may consist of cash, letters of credit, or government securities having a market value equal to or exceeding 102% (U.S. dollar denominated) or 105% (non-U.S. dollar denominated) of the value of the loaned securities at the time the loan is made. For Common Funds A and B, in the event that the market value of the collateral falls below 101% of the market value of all the outstanding loaned securities to an individual borrower, additional collateral shall be transferred by the borrower to the respective funds no later than the close of the next business day so that the market value of such additional collateral, when added to the market value of the other collateral, shall equal 102% of the market value of the loaned securities. For Common Fund D, in the event that the market value of the collateral falls below the collateral requirement of either 102% or 105% (depending on whether the securities are denominated in U.S. dollars or a foreign currency, respectively) of the market value of the outstanding loaned securities to an individual borrower, additional collateral shall be transferred in an amount that will increase the aggregate of the borrower's collateral to meet the collateral requirements. As of June 30, 2007, the Common Funds have no aggregate credit risk exposure to brokers because the collateral amount held by the Common Funds exceeded the market value of the securities on loan.

The contracts with the Common Funds' custodian banks require them to indemnify the Common Funds if the brokers or other borrowers fail to return the securities or fail to pay the Common Funds for income distributions on the securities while they are on loan. The custodian bank for Common Fund D also indemnifies the Common Funds for any loss of principal or interest on the invested collateral. For any losses on the investment collateral in Common Funds A or B or other pension plan portfolios, the lending fee paid to the lending agent shall be reduced by 25% of the amount of such loss, up to an amount not to exceed 75% of the previous six months' securities lending fees. The securities loans can be terminated by notification by either the borrower or the Common Funds. The term to maturity of the securities loans is generally matched with the term to maturity of the investment of the cash collateral.

Derivatives

The Common Funds' international portfolio managers utilize forward foreign currency contracts, a derivative security, as a means to hedge against the currency risk in the Common Funds' foreign stock and fixed income portfolios. A derivative security is an investment whose payoff depends upon the value of other assets such as bond and stock prices, a market index, or commodity prices. Derivative transactions involve, to varying degrees, credit risk and market risk. Credit risk is the possibility that a loss may occur because a party to a transaction fails to perform according to terms. Market risk is the possibility that a change in market prices or currency rates will cause the value of a financial instrument to decrease or become more costly to settle.

**STATE OF NEW JERSEY
TEACHERS' PENSION AND ANNUITY FUND**

Notes to Financial Statements

June 30, 2007

Forward foreign currency contracts are agreements to buy or sell a specific amount of a foreign currency at a specified delivery or maturity date for an agreed upon price. Forward foreign currency contracts are used to hedge against the currency risk in the Common Funds' foreign stock and fixed income portfolios.

There were no foreign forward currency contracts at June 30, 2007

The Common Funds utilize covered call and put options in an effort to add value to or reduce the risk level in the portfolio. Covered options are agreements that give the owner of the option the right, but not obligation, to buy (in the case of a call option) or to sell (in the case of a put option) a specific amount of an asset for a specific price (called the strike price) on or before a specified expiration date. The writer of call options receives a premium at the outset of the agreement and bears the risk of an unfavorable change (i.e., an increase) in the price of the instrument underlying the option. The Common Funds owned 53,208 contracts on indexed put options with a fair value of \$169,137,647 at June 30, 2007, which is included in the fair value of the portfolio.

Certain alternative investment funds and partnerships may use derivative instruments to hedge against market risk and to enhance investment returns. At any point during the year, the Common Funds may have additional exposure to derivatives primarily through limited liability vehicles such as limited partnerships and commingled investment funds.

Members' Loans

Members who have at least three years of service in the Fund may borrow up to 50% of their accumulated member contributions. Repayment of loan balances is deducted from payroll checks and bears an interest rate of 4%. Members who retire with an outstanding loan have the option of paying the loan in full prior to receiving any benefits or continuing their monthly loan payment schedule into retirement.

Under the Internal Revenue Service regulations effective January 1, 2004, the Division changed its pension loan repayment policy: Members who take multiple loans must repay the outstanding balance of the original loan, and all subsequent loans taken before the original loan is completely paid off, within a period not to exceed 5 years from the issuance of the first loan taken after January 1, 2004. Failure to repay the loan within the five-year period will result in the unpaid balance being declared a taxable distribution.

Administrative Expenses

The Fund is administered by the State of New Jersey Division of Pensions and Benefits. Administrative expenses are paid by the Fund to the State of New Jersey, Department of the Treasury, and are included in the accompanying statements of changes in fiduciary net assets.

New Jersey state statute provides for a State Investment Council (Council) and a Director. Investment authority is vested in the Director of the Division and the role of the Council is to formulate investment policies. The Council issues regulations which establish guidelines for permissible investments which include domestic and international equities and exchange traded funds, covered call and put options, equity futures contracts, obligations of the U.S. Treasury, government agencies, corporations, finance companies and banks, obligations of international corporations, governments and agencies, interest rate swap transactions, fixed income exchange traded funds, U.S. Treasury futures contracts, New Jersey State and Municipal general obligations, public authority revenue obligations, collateralized notes and mortgages, commercial paper, certificates of deposit, repurchase agreements, bankers acceptances, guaranteed income contracts, funding agreements, money market funds, private equity, real estate, other real assets and absolute return strategy funds.

The Pension Fund investments are subject to various risks. Among these risks are credit risk, concentration of credit risk, interest rate risk, and foreign currency risk. Each one of these risks is discussed in more detail below.

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The credit risk of a debt instrument is evaluated by nationally recognized statistical rating agencies such as Moody's Investors Service, Inc. (Moody's), Standard & Poor's Corporation (S&P), and Fitch Ratings (Fitch). Concentration of credit risk is the risk of loss attributed to the magnitude of an investment in a single issuer. There are no restrictions in the amount that can be invested in United States treasury and

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Commercial paper must mature within 270 days. Certificates of deposits and bankers acceptances are limited to a term of one year or less. The maturity requirement for repurchase agreements was 15 days through September 4, 2006; this was revised to 30 days effective September 5, 2006. The investment in guaranteed income contracts and funding agreements is limited to a term of 10 years or less.

Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment. The Pension Fund invests in global markets. The market value of international preferred and common stocks and issues convertible into common stocks, when combined with the market value of international government and agency obligations, previously could not exceed 22% of the market value of the Pension Fund. Effective September 5, 2006, the market value of emerging market securities cannot exceed more than 1.5 times the percentage derived by dividing the total market capitalization of companies included in the Morgan Stanley Capital International (MSCI) Emerging Market Index by the total market capitalization of the companies included in the MSCI All-Country World Ex-United States Index of the total market value of the assets held by Common Fund D. Prior to September 5, 2006, not more than 5% of the value of the assets held by Common Fund D can be invested in companies incorporated in emerging market countries. Not more than 5% of the market value of the emerging market securities can be invested in any one corporation. Council regulations permit the Pension Fund to enter into foreign exchange contracts for the purpose of hedging the international portfolio. The Pension Fund had the following foreign currency exposure (expressed in U.S. dollars and in thousands) at June 30, 2007:

<u>Currency</u>	<u>Total market value</u>	<u>Equities</u>	<u>Foreign government obligations</u>	<u>Alternative Investments</u>

The Cash Management Fund is not evidenced by securities that exist in physical or book entry form held by the Pension Fund.

The Pension Fund's interests in alternative investments may contain elements of credit, currency and market risk. Such risks include, but are not limited to, limited liquidity, absence of regulatory oversight, dependence upon key individuals, emphasis on speculative investments (both derivatives and non-marketable investments), and nondisclosure of portfolio composition. Effective September 5, 2006, Council regulations require that not more than 18% of the market value of the Pension Fund can be invested in alternative investments, with the individual categories of real estate, real assets, private equity

and absolute return strategy investments limited to 7%. Not more than 5% of the market value of Common Fund E, plus outstanding commitments, may be committed to any one partnership or investment, without the prior written approval of the Council. The investments in Common Fund E cannot comprise more than 20% of any one investment manager's total assets.

(4) Securities Lending Collateral

The Fund's share in the securities lending program is 42.59% of the total market value of the collateral as of June 30, 2007.

The securities lending collateral is subject to various risks. Among these risks are credit risk, concentration of credit risk, and interest rate risk. Agreements with the lending agents require minimum credit ratings for certain categories of fixed income obligations and limit the amount that can be invested in any one issuer or issue. These limits are consistent with Council regulations and internal policies for funds managed by the Division. These limits for the period July 1, 2006 through September 4, 2006 were as follows:

Notes to Financial Statements

June 30, 2007

Total exposure to any individual issuer is limited, except for U.S. Treasury and Government Agency Obligations. For money market funds, the total amount of shares or units purchased or acquired of any money market fund shall not exceed 5% of the shares or units outstanding of said money market fund. For Collateralized Notes and Mortgages, not more than 2% and 5% of the assets of the collateral portfolio shall be invested in the obligations of any one issuer and issue, respectively. For Guaranteed Income Contracts and Funding Agreements, the total investment in any one issuer shall be limited to 2.5% of the collateral portfolio. The Division sets individual issuer limits for Commercial Paper and Certificate of Deposits. For Corporate Obligations, U.S. Finance Company Debt, Bank Debentures and Bankers Acceptances, exposure to any one issuer shall be limited to the following percentages of the collateral portfolio in accordance with the issuer's rating from Moody's: Aaa (4%), Aa (3%), A (2%), and Baa (1%).

For securities exposed to credit risk in the collateral portfolio, the following table discloses aggregate market value, by major credit quality rating category at June 30, 2007. Notes to Financial Statements

June 30, 2007

As of June 30, 2007, the Pension Fund had outstanding loaned investment securities with an aggregate market value of \$18,034,823,201 and received cash collateral of \$18,423,399,432 and non-cash collateral of \$4,471,761. In accordance with GASB accounting standards, the non-cash collateral is not reflected in the accompanying financial statements.

(5) Contributions

The contribution policy is set by N.J.S.A. 18:66 and requires contributions by active members and contributing employers. Plan member and employer contributions may be amended by State of New Jersey legislation. Members contribute at a uniform rate 5%. Employers are required to contribute at an actuarially determined rate. The annual employer contributions include funding for basic retirement allowances, cost-of-living adjustments and noncontributory death benefits.

To fund the benefit increases provided by Chapter 133, the legislation provided for the use of excess assets. A special benefit enhancement fund (BEF) was established from which the required normal contributions for the increased benefits will be charged. To fund the accrued liabilities incurred by the Fund, the actuarial value of assets for the valuation period ending June 30, 1999 was adjusted to reflect the full market value of assets.

As of June 30, 2005 actuarial valuation, the assets in the BEF had been were fully depleted, and thus, funding for the benefit enhancement will be part of the annual state appropriation.

The State made a contribution of \$664.93 million for fiscal year 2007, the first significant contribution to the system since fiscal year 1997. The amount contributed in fiscal year 2007 is equal to approximately 57.5% of the actuarially determined amount.

(6) Funds

This Fund maintains the following legally required funds:

Members' Annuity Savings and Accumulative Interest Fund (\$7,563,158,194)

The Members' Annuity Savings Fund (ASF) is credited with all contributions made by active members of the Fund. Interest earned on member contributions is credited to the Accumulated Interest Fund. Member withdrawals are paid out of this Fund.

Contingent Reserve Fund (\$1,705,254,326)

The Contingent Reserve Fund is credited with the contributions of contributing employers. Interest earnings, after crediting the Accumulative Interest Fund, Retirement Reserve Fund, and Special Reserve Fund, as required, are credited to this account. Additionally, payments for life insurance premiums and administrative expenses are made from this Fund.

Notes to Financial Statements

June 30, 2007

Retirement Reserve Fund (\$24,799,022,806)

The Retirement Reserve Fund is the account from which retirement benefits including cost-of-living adjustments are paid. Upon retirement of a member, accumulated contributions, together with accumulated interest, are transferred to the Retirement Reserve Fund from the Members' ASF and Accumulative Interest Fund. Any additional reserves needed for the retirement and cost-of-living benefits are transferred from the Contingent Reserve Fund. Annually, interest as determined by the State Treasurer (8.25% since fiscal year 2006) is credited to the Retirement Reserve Fund.

Special Reserve Fund (\$338,834,188)

The Special Reserve Fund is the fund to which excess earnings and gains from sales and maturities of investments are transferred and against which any losses from the sales of securities are applied. The maximum limit on the accumulation of this account is 1% of the market value of the investments allocated to the Fund, excluding Cash Management Fund investments and bonds allocated to the Contributory Group Insurance Premium Fund which amounted to \$122.19 million as of June 30, 2007. Amounts in excess of 1% are credited to the Contingent Reserve Fund.

Contributory Group Insurance Premium Fund (\$120,393,621)

The Contributory Group Insurance Premium Fund represents the accumulation of member group insurance contributions in excess of premiums disbursed to the insurance carrier since the inception of the contributory death benefit program plus reserves held by the insurance carrier. Members are required by statute to participate in the contributory group insurance plan in the first year of membership and may cancel the contributory coverage thereafter. The current contribution rate for active members is 0.4 of 1% of salary, as defined.

Non-Contributory Group Insurance Premium Fund (\$0)

The Non-Contributory Group Insurance Premium Fund represents the accumulation of employer group insurance contributions in excess of premiums disbursed to the insurance carrier since the inception of the non-contributory death benefit program plus reserves held by the insurance carrier. Members are eligible by statute for the non-contributory group insurance plan in the first year of membership.

Benefit Enhancement Reserve Fund (\$0)

The Benefit Enhancement Reserve Fund is a special reserve fund from which the required normal contributions to provide benefit increases under Chapter 353, P.L. 2001 and Chapter 133, P.L. 2001 will be charged. The fund was established in 2003 and credited with excess assets equivalent to member contributions for fiscal years 2000 and 2001 by transferring reserves in the Contingent Reserve Fund to the Benefit Enhancement Fund. Additional transfers will be made, as required, to maintain a fund balance equal to the present value of expected additional normal contributions due to the increased benefits.

(7) Income Tax Status

Based on a 1986 declaration of the Attorney General of the State of New Jersey, the Fund is a qualified plan as described in Section 401(a) of the Internal Revenue Code.
