## Independent Auditor's Report

The Board of Trustees  
State of New Jersey  
Police and Firemen's Retirement System

We have audited the accompanying statement of fiduciary net assets of the State of New Jersey Police and Firemen's Retirement System (the System) as of June 30, 2011, and the related statement of changes in fiduciary net assets for the year then ended. These financial statements are the responsibility of the System's management. Our responsibility is to express an opinion on these financial statements based on our audits. The financial statements of the System as of June 30, 2010 were audited by other auditors whose report dated October 27, 2010 expressed an unqualified opinion on those financial statements.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the System's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of State of New Jersey Police and Firemen's Retirement System as of June 30, 2011, and changes in its financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Management's Discussion and Analysis and the supplementary information included in the schedule of funding progress and schedule of employer contributions (schedules 1 and 2) are not a required part of the basic financial statements but are supplementary information required by the accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was made for the purpose of forming an opinion on the basic financial statements taken as a whole. The 2011 schedule of changes in fiduciary net assets by fund (schedule 3) is presented for purposes of additional analysis and is not a required part of the basic financial statements of the System. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements, and, in our opinion, is presented fairly, in all material respects, in relation to the basic financial statements taken as a whole.

Management's Discussion and Analysis

June 30, 2011 and 2010

Our discussion and analysis of the financial performance of the Police and Firemen's Retirement System (the System or PFRS) provides an overview of the System's financial activities for the fiscal years ended June 30, 2011 and 2010. Please read it in conjunction with the basic financial statements and financial statement footnotes, which follow this discussion.

**Financial Highlights**

**2011 - 2010**

- Net assets held in trust for pension benefits increased by \$1,448,550,068 as a result of fiscal year 2011's operations from \$19,844,137,816 to \$21,292,687,884.
- Additions for the year are \$3,181,924,007, which are comprised of member and employer pension contributions of \$110,443,152 and net investment income of \$3,071,480,855.
- Deductions for the year are \$1,733,373,939, which are comprised of benefit and refund payments of \$1,729,258,463 and administrative expenses of \$4,115,476.

**2010 - 2009**

- Net assets held in trust for pension benefits increased by \$1,755,208,201 as a result of fiscal year 2010's operations from \$18,088,929,615 to \$19,844,137,816.
- Additions for the year are \$3,340,414,302, which are comprised of member and employer pension contributions of \$1,332,175,021 and net investment income of \$2,008,239,281.
- Deductions for the year are \$1,585,206,101, which are comprised of benefit and refund payments of \$1,579,126,015 and administrative expenses of \$6,080,086.

**The Statements of Fiduciary Net Assets and the Statements of Changes in Fiduciary Net Assets**

This annual report consists of two financial statements: *The Statements of Fiduciary Net Assets* and *The Statements of Changes in Fiduciary Net Assets*. These financial statements report information about the System and about its activities to help you assess whether the System, as a whole, has improved or declined as a result of the year's activities. The financial statements were prepared using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized in the period they are earned and expenses are recorded in the year they are incurred, regardless of when cash is received or paid.

*The Statements of Fiduciary Net Assets* show the balances of all of the assets and liabilities of the System at the end of the fiscal year. The difference between assets and liabilities represents the System's fiduciary net assets. Over time, increases or decreases in the System's fiduciary net assets provide one indication of whether the financial health of the System is improving or declining. *The Statements of Changes in Fiduciary Net Assets* show the results of financial operations for the year. The statements provide an explanation for the change in the System's fiduciary net assets since the prior year. These two financial statements should be reviewed along with the information contained in the financial statement footnotes, including the required supplementary schedules, to determine whether the System is becoming financially stronger or weaker.

Management's Discussion and Analysis

June 30, 2011 and 2010

**Financial Analysis**

**Summary of Fiduciary Net Assets**

2011 – 2010

	<u>2011</u>	<u>2010</u>	<u>Increase</u>
Assets	\$ 21,673,746,646	19,987,241,043	1,686,505,603
Liabilities	381,058,762	143,103,227	237,955,535
Net assets	<u>\$ 21,292,687,884</u>	<u>19,844,137,816</u>	<u>1,448,550,068</u>

The System's assets primarily consist of investments, securities lending collateral, contributions due from members and participating employers, accrued investment income and members' loans receivable. Between fiscal years 2010 and 2011, total assets increased by \$1.7 billion or 8.4%. The total assets increased due to an increase in investments of \$2.6 billion, an increase in the securities lending collateral of \$225.2 million, offset by a decrease in receivables of \$1.1 billion. Employer contributions receivables include contribution receivables from local employers for appropriations and early retirement incentive programs due April 1, 2012.

Liabilities consist of retirement benefits payable to retirees and beneficiaries, non-contributory group insurance premiums payable to the System's insurance provider, securities lending collateral and rebates payable and, classified under accounts payable and accrued expenses, liabilities of PFRS for unclaimed member accounts and checks issued to members that have not been negotiated by the members but remain due and payable. Total liabilities increased by \$238.0 million or 166.3% due to an increase in the securities lending collateral and rebates payable of \$224.9 million and an increase in retirement benefits payable and other payables of \$13.1 million.

Net assets held in trust for pension benefits increased by \$1.4 billion or 7.3%.

**Summary of Fiduciary Net Assets**

2010 – 2009

	<u>2010</u>	<u>2009</u>	<u>Increase (decrease)</u>
Assets	\$ 19,987,241,043	19,323,903,680	663,337,363
Liabilities	143,103,227	1,234,974,065	(1,091,870,838)
Net assets	<u>\$ 19,844,137,816</u>	<u>18,088,929,615</u>	<u>1,755,208,201</u>

The System's assets primarily consist of investments, securities lending collateral, contributions due from members and participating employers, accrued investment income and members' loans receivable. Between fiscal years 2009 and 2010, total assets increased by \$0.7 billion or 3.4%. The total assets increased due to an increase of \$1.5 billion in the fair value of investments, an increase of \$0.3 billion in the employer contribution receivables and other assets, offset by a decrease of \$1.1 billion in the securities lending collateral. Employer contributions receivables include contribution receivables from local employers for appropriations and early retirement incentive programs due April 1, 2011 and 2012.

**STATE OF NEW JERSEY  
POLICE AND FIREMEN'S RETIREMENT SYSTEM**

Management's Discussion and Analysis

June 30, 2011 and 2010

Liabilities consist of retirement benefits payable to retirees and beneficiaries, non-contributory group insurance premiums payable to the System's insurance provider, securities lending collateral and rebates payable and, classified under accounts payable and accrued expenses, liabilities of PFRS for unclaimed member accounts and checks issued to members that have not been negotiated by the members but remain due and payable. Total liabilities decreased by \$1.1 billion or 88.4% due to a decrease in the securities lending collateral and rebates payable of \$1.1 billion, offset by an increase of \$9.9 million in retirement benefits payable and other payables.

Net assets held in trust for pension benefits increased by \$1.8 billion or 9.7%.

**Summary of Changes to Fiduciary Net Assets**

2011 – 2010

	<u>2011</u>	<u>2010</u>	<u>Increase (decrease)</u>
Additions:			
Member contributions	\$ 327,357,244	330,951,798	(3,594,554)
Employer contributions	(216,914,092)	1,001,223,223	(1,218,137,315)
Net investment income	3,071,480,855	2,008,239,281	1,063,241,574
Total additions	<u>3,181,924,007</u>	<u>3,340,414,302</u>	<u>(158,490,295)</u>
Deductions:			
Benefits	1,721,552,719	1,573,510,855	148,041,864
Refunds of contributions	7,705,744	5,615,160	2,090,584
Administrative and miscellaneous expenses	4,115,476	6,080,086	(1,964,610)
Total deductions	<u>1,733,373,939</u>	<u>1,585,206,101</u>	<u>148,167,838</u>
Changes in net assets	<u>\$ 1,448,550,068</u>	<u>1,755,208,201</u>	<u>(306,658,133)</u>

Additions primarily consist of member and employer contributions and earnings from investment activities. Member contributions decreased by \$3.6 million or 1.1% due to a decrease in active membership.

Employer contributions decreased by \$1.2 billion or 121.7%. In fiscal year 2011, employer contributions include accrued appropriations due April 1, 2012 and early retirement incentive benefits billed to local employers. The State did not make a pension contribution for fiscal year 2011 but did make a contribution of \$7.6 million for Non-contributory Group Insurance (NCGI) death benefits. Also included in the employer contributions is the annual billing to local employers for their pension and NCGI contributions and Early Retirement Incentive (ERI) contributions for those who participate in the various ERI programs and other miscellaneous items that were due the system. The amount accrued in fiscal year 2010 and due April 1, 2012 was originally \$950.7 million. In fiscal year 2011 the State made a decision to reduce the PFRS lag period between the valuation year and the contribution year from three years to two years which will bring the System in line with the other pension trust funds. This change results in a revised accrual for the bills due April 1, 2012 in the amount of \$736.1 million resulting in a reduction of \$214.6 million.

Net investment income increased by \$1.1 billion or 52.9% due to appreciation of investments.

**STATE OF NEW JERSEY  
POLICE AND FIREMEN'S RETIREMENT SYSTEM**

Management's Discussion and Analysis

June 30, 2011 and 2010

The total investment return for all pension funds was estimated to be an 18.03% gain compared to a 13.4% gain in the prior year.

Deductions are mainly comprised of pension benefit payments to retirees and beneficiaries, refunds of contributions to former members, and administrative costs incurred by the System. Benefit payments increased by \$148.0 million or 9.4% primarily due to an increase in number of retirees receiving benefits. The amount of refunds processed increased by \$2.1 million or 37.2%. Administrative expenses decreased by \$2.0 million or 32.3% due to a change in the method of calculating the amount reimbursed to the State of New Jersey general fund between fiscal years 2010 and 2011.

**Summary of Changes to Fiduciary Net Assets**

2010 – 2009

	<u>2010</u>	<u>2009</u>	<u>Increase (decrease)</u>
Additions:			
Member contributions	\$ 330,951,798	326,491,066	4,460,732
Employer contributions	1,001,223,223	913,302,011	87,921,212
Net investment income (loss)	2,008,239,281	(2,735,834,439)	4,744,073,720
Total additions	<u>3,340,414,302</u>	<u>(1,496,041,362)</u>	<u>4,836,455,664</u>
Deductions:			
Benefits	1,573,510,855	1,463,420,411	110,090,444
Refunds of contributions	5,615,160	6,299,957	(684,797)
Administrative and miscellaneous expenses	6,080,086	6,526,510	(446,424)
Total deductions	<u>1,585,206,101</u>	<u>1,476,246,878</u>	<u>108,959,223</u>
Changes in net assets	<u>\$ 1,755,208,201</u>	<u>(2,972,288,240)</u>	<u>4,727,496,441</u>

Additions primarily consist of member and employer contributions and earnings from investment activities. Member contributions increased by \$4.5 million or 1.4% due to a normal salary increase.

Employer contributions increased by \$87.9 million or 9.6%. In fiscal year 2010, employer contributions include accrued appropriations due April 1, 2011 and 2012 and early retirement incentive benefits billed to local employers. The State did not make a pension contribution for fiscal year 2010 but did make a contribution of \$7.3 million for Non-contributory Group Insurance (NCGI) death benefits. Also included are miscellaneous items that were due the system from the State and the local employers.

Net investment income increased by \$4.7 billion or 173.4% due to appreciation of investments.

The total investment return for all pension funds was estimated to be a 13.4% gain compared to a 15.5% loss in the prior year.

**STATE OF NEW JERSEY  
POLICE AND FIREMEN'S RETIREMENT SYSTEM**

Management's Discussion and Analysis

June 30, 2011 and 2010

Deductions are mainly comprised of pension benefit payments to retirees and beneficiaries, refunds of contributions to former members, and administrative costs incurred by the System. Benefit payments increased by \$110.1 million or 7.5% primarily due to an increase in number of retirees receiving benefits. The amount of refunds processed decreased by \$0.7 million or 10.9%. Administrative expenses decreased by \$0.4 million or 6.8%.

**Retirement System as a Whole**

The overall funded ratios of 80.2% for fiscal year 2011 and 70.8% for fiscal year 2010 indicate that the System is reasonably funded.

**Contacting System Financial Management**

The financial report is designed to provide our members, beneficiaries, investors and other interested parties with a general overview of the System's finances and to show the System's accountability for the money it receives. If you have any questions about this report or need additional financial information, contact the Division of Pensions and Benefits, P.O. Box 295, Trenton, NJ 08625-0295

**STATE OF NEW JERSEY  
POLICE AND FIREMEN'S RETIREMENT SYSTEM**

Notes to Financial Statements

June 30, 2011 and 2010

**(1) Description of the System**

The State of New Jersey Police and Firemen's Retirement System (the System; PFRS) is a cost-sharing multiple-employer contributory defined benefit plan which was established as of July 1, 1944, under the provisions of N.J.S.A. 43:16A. The System is included along with other state-administered pension trust and agency funds in the basic financial statements of the State of New Jersey.

At July 1, 2010 and 2009, the dates of the most recent actuarial valuations, participating employers consisted of the following:

	<b>2010</b>	<b>2009</b>
State of New Jersey	1	1
Municipalities	588	588
Total	589	589

The System's designated purpose is to provide retirement, death and disability benefits to its members. Membership in the System is mandatory for substantially all full-time county and municipal police or firemen, and state firemen or officer employees with police powers appointed after June 30, 1944. The System's board of trustees is primarily responsible for its administration.

According to State of New Jersey Administrative Code, all obligations of the System will be assumed by the State of New Jersey should the System terminate.

***Vesting and Benefit Provisions***

The vesting and benefit provisions are set by N.J.S.A. 43:16A and 43:3B. The PFRS provides retirement as well as death and disability benefits. All benefits vest after ten years of service, except disability benefits which vest after four years of service. Retirement benefits for age and service are available at age 55 and are generally determined to be 2% of final compensation for each year of creditable service, as defined, up to 30 years plus 1% for each year of service in excess of 30 years. Final compensation equals the compensation for the final year of service prior to retirement. Members may seek special retirement after achieving 25 years of creditable service or they may elect deferred retirement after achieving ten years of service, in which case benefits would begin at age 55 equal to 2% of final compensation for each year of service. The annual benefit under special retirement is 65% of the member's final compensation plus 1% for each year of creditable service over 25 years but not to exceed 30 years. The maximum allowance is therefore 70% of final compensation. Pursuant to the provisions of Chapter 78, P.L. 2011, the annual benefit under special retirement for members enrolled after June 28, 2011 (Tier 3 members), is 60% of the member's final compensation plus 1% for each year of creditable service over 25 years but not to exceed 30 years. The maximum allowance is therefore 65% of final compensation.

Widows and widowers of members retired since December 18, 1967 receive 50% of the retiree's final compensation. The minimum annual widow and widower's benefits of an accidental disability retiree prior to December 18, 1967 and of all retirees since December 18, 1967 is \$4,500.

**STATE OF NEW JERSEY  
POLICE AND FIREMEN'S RETIREMENT SYSTEM**

Notes to Financial Statements

June 30, 2011 and 2010

Members are always fully vested for their own contributions. In the case of death before retirement, members' beneficiaries are entitled to full payment of members' contributions providing no survivor death benefits are payable.

Eligible retirees receiving monthly benefits are entitled to cost-of-living (COLA) increases equal to 60% of the change in the average consumer price index for the calendar year in which the pensioner retired, as compared to the average consumer price index for a 12-month period ending with each August 31st immediately preceding the year in which the adjustment becomes payable. The regular retirement allowance is multiplied by the 60% factor as developed and results in the dollar amount of the adjustment payable. Retired members become eligible for pension adjustment benefits after 24 months of retirement. The COLA increases are funded by the retirement system and are included in the annual actuarial calculations of the required state and state-related employer contributions. Pursuant to the provisions of Chapter 78, P.L. 2011, COLA increases are suspended for all current and future retirees of all retirement systems. No further COLA increases will be granted. The law does not reduce any COLA increases that have already been added to retiree benefits.

Pursuant to Chapter 1, P.L. 2010, for new members of PFRS hired after May 21, 2010 (Tier 2 members), this law capped the maximum compensation that can be used to calculate a pension from these plans at the annual wage contribution base for Social Security, and requires the pension to be calculated using a three year average annual compensation instead of the last year's salary.

***Membership***

Membership in the System consisted of the following at July 1, 2010 and 2009, the dates of the most recent actuarial valuations:

	<b>2010</b>	<b>2009</b>
Retirees and beneficiaries currently receiving benefits and terminated employees entitled to benefits but not yet receiving them	35,973	34,364
Active members:		
Vested	29,552	29,400
Nonvested	14,652	15,750
Total active members	44,204	45,150
Total	80,177	79,514

**(2) Summary of Significant Accounting Policies**

***Measurement Focus and Basis of Accounting***

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. The System is accounted for using an economic resources measurement focus.

The accrual basis of accounting is used for measuring financial position and changes in fiduciary net assets of the System. Under this method, revenues are recorded in the accounting period in which they are earned,

**STATE OF NEW JERSEY**  
**POLICE AND FIREMEN'S RETIREMENT SYSTEM**

Notes to Financial Statements

June 30, 2011 and 2010

and deductions are recorded at the time the liabilities are incurred. The financial statements of the System conform to the provisions of Governmental Accounting Standards Board (GASB) Statement No. 25, *Financial Reporting for Defined Benefit Plans and Note Disclosures for Defined Contributions Plans*. Employer contributions are recognized when payable to the System. Benefits and refunds are recognized when due and payable in accordance with the terms of the System.

***Investments***

The Division of Investment, Department of the Treasury, State of New Jersey (Division of Investment) manages and invests certain assets of seven of the defined benefit plans (PERS, TPAF, JRS, PFRS, CPFPPF, SPRS and POPF). The Division of Investment separately reports the assets, liabilities and net assets of the underlying investment portfolio of the seven defined benefit plans in its Pension Fund report. The Division of Investment accounts included in the Pension Fund report are: Common Fund A, Common Fund B, Common Fund D, Common Fund E, Police and Firemen's Mortgage Program accounts and other investments owned directly by the seven defined benefit pension plans. Common Fund A invests primarily in domestic equity securities. Common Fund B invests primarily in domestic fixed income securities. Common Fund D invests primarily in foreign equity and fixed income securities. Common Fund E invests primarily in alternative investments which includes private equity, real assets, real estate, and absolute return strategy investments. The Police and Firemen's Retirement System includes a mortgage loan program administered by the New Jersey Housing and Mortgage Finance Agency that provides participants with mortgages from the program at rates which are fixed by formula. The law establishing the program provides that the System may not sell the mortgages, and no independent market exists for them.

Investments are reported at fair value as follows:

- U.S. Government and Agency, Sovereign and Corporate obligations – prices quoted by a major dealer in such securities.
- Domestic and Foreign Equity Securities, Exchanged Traded Funds, Forward Foreign Exchange Contracts – closing prices as reported on the primary market or exchange on which they trade.
- Money Market Instruments – amortized cost which approximates fair value.
- Cash Management Fund – closing bid price on the last day of trading during the period as determined by the Transfer Agent.
- Mortgages – all mortgages except for the Police and Firemen's mortgages are priced by a major dealer in such securities and reviewed by management for reasonableness. The Police and Firemen's mortgages are priced using another third-party administrator.
- Alternative investments (private equity, real estate, real asset, and absolute return strategy funds) – Fair values for the individual funds are based upon the net asset values for the funds at the closest available reporting date, adjusted for subsequent contributions, distributions, management fees and reserves. The valuation techniques vary based upon investment type and involve a certain degree of expert judgment. The most significant input into the net asset value of an entity is the value of its investment holdings. The net asset value is provided by the general partner and/or investment manager and reviewed by management. The net asset values are audited annually. The strategy of private equity and real estate funds are long term and illiquid in nature which can prevent the

**STATE OF NEW JERSEY**  
**POLICE AND FIREMEN'S RETIREMENT SYSTEM**

Notes to Financial Statements

June 30, 2011 and 2010

investment from being readily marketable. Hedge funds may be subject to redemption restrictions which can limit distributions and restrict the ability of a limited partner to exit a partnership. For alternative investments, the realized value received upon the sale of these investments in the open market might be different than the fair value reported in the accompanying financial statements.

Investment transactions are accounted for on a trade or investment date basis. Gains and losses from investment transactions are determined by the average cost method. Interest and dividend income is recorded on the accrual basis, with dividends accruing on the ex-dividend date.

The net asset values of Common Funds A, B, D and E (Common Funds) are determined as of the close of the last day of business of each month. Purchases and redemptions of participants' units are transacted each month within fifteen days subsequent to that time and are recorded at such net asset value.

Dividends and interest earned per unit are calculated monthly and distributed quarterly for Common Funds A and B. Dividends and interest earned per unit are calculated monthly for Common Fund D, and the income earned on Common Fund D units is reinvested. Income earned per unit is calculated monthly for Common Fund E, and the income earned on Common Fund E units is reinvested.

***Securities Lending***

The State Investment Council policies permit Common Funds A, B and D and several of the direct pension plan portfolios to participate in securities lending programs, whereby securities are loaned to brokers or other borrowers and, in return, the pension funds have rights to the collateral received. All of the securities held in Common Funds A, B and D, and certain securities held directly by the pension plans, are eligible for the securities lending program. Collateral received may consist of cash, letters of credit, or government securities having a market value equal to or exceeding 102% (U.S. dollar denominated) or 105% (non-U.S. dollar denominated) of the value of the loaned securities at the time the loan is made. Collateral is marked to market daily and adjusted as needed to maintain the required minimum level. Effective December 2010, for loans of U.S. government securities or sovereign debt issued by non-U.S. governments, in the event that the market value of the collateral falls below 100% of the market value of the outstanding loaned securities to an individual borrower, or the market value of the collateral of all loans of such securities falls below the collateral requirement, additional collateral shall be transferred by the borrower to the respective funds no later than the close of the next business day so that the market value of such additional collateral together with collateral previously delivered meets the collateral requirements. For loans of all other types of securities, in the event that the market value of the collateral falls below the collateral requirement of either 102% or 105% (depending on whether the securities are denominated in U.S. dollars or a foreign currency, respectively) of the market value of the outstanding loaned securities to an individual borrower, additional collateral shall be transferred in an amount that will increase the aggregate of the borrower's collateral to meet the collateral requirements. As of June 30, 2011 and 2010, the Common Funds have no aggregate credit risk exposure to borrowers because the collateral amount held by the Common Funds exceeded the market value of the securities on loan.

The contracts with the Common Funds' securities lending agent require them to indemnify the Common Funds if the brokers or other borrowers fail to return the securities and provides that collateral securities may be sold in the event of a borrower default. The Common Funds are also indemnified for any loss of principal or interest on collateral invested in repurchase agreements. The Common Funds cannot

**STATE OF NEW JERSEY  
POLICE AND FIREMEN'S RETIREMENT SYSTEM**

Notes to Financial Statements

June 30, 2011 and 2010

participate in any dividend reinvestment program or vote with respect to any securities that are on loan on the applicable record date. The securities loans can be terminated by notification by either the borrower or the Common Funds. The term to maturity of the securities loans is generally matched with the term to maturity of the investment of the cash collateral.

***Derivatives***

The Division of Investment, from time to time, utilizes forward foreign currency contracts, derivative securities, as a means to hedge against currency risks in the Common Funds' foreign equity and fixed income portfolios. Forward foreign currency contracts are agreements to buy or sell a specific amount of a foreign currency at a specified delivery or maturity date for an agreed upon price.

The fair values of foreign forward currency contracts held directly by the Common Funds as of June 30, 2011 and 2010 were as follows:

		<b>2011</b>	<b>2010</b>
Forward currency receivable	\$	1,285,366,143	1,950,687,029
Forward currency payable		1,310,308,414	1,964,107,355
Net unrealized loss		(24,942,271)	(13,420,326)

The Common Funds utilize covered call and put options in an effort to add value to or reduce the risk level in the portfolio. Options are agreements that give the owner of the option the right, but not obligation, to buy (in the case of a call option) or to sell (in the case of a put option) a specific amount of an asset for a specific price (called the strike price) on or before a specified expiration date. The Common Funds enter into covered calls when they write (or sell) call options on underlying stocks held by the Common Funds or stock indices. The Common Funds enter into covered put options when they purchase put options on underlying stocks held by the Common Funds or stock indices. The purchaser of put options pays a premium at the outset of the agreement and stands to gain from an unfavorable change (i.e., a decrease) in the price of the instrument underlying the option. The writer of call options receives a premium at the outset of the agreement and bears the risk of an unfavorable change (i.e., an increase) in the price of the instrument underlying the option.

The System had written call options on 5,375,000 shares, and these options had a fair value of \$3,822,200 at June 30, 2011. The System owned 11,650 put option contracts with a fair value of \$5,505,500 at June 30, 2011. The Common Funds did not have any written call or put option contracts as of June 30, 2010.

Certain alternative investment funds and partnerships may use derivative instruments to hedge against market risk and to enhance investment returns. At any point during the year, the Common Funds may have additional exposure to derivatives primarily through limited liability vehicles such as limited partnerships and commingled investment funds.

***Members' Loans***

Members who have at least three years of service in the System may borrow up to 50% of their accumulated member contributions. Repayment of loan balances is deducted from payroll checks and bears

**STATE OF NEW JERSEY**  
**POLICE AND FIREMEN'S RETIREMENT SYSTEM**

Notes to Financial Statements

June 30, 2011 and 2010

a commercially reasonable interest rate. Members who retire with an outstanding loan have the option of paying the loan in full prior to receiving any benefits or continuing their monthly loan payment schedule into retirement.

Under the Internal Revenue Service regulations effective January 1, 2004, the Division changed its pension loan repayment policy: Members who take multiple loans must repay the outstanding balance of the original loan, and all subsequent loans taken before the original loan is completely paid off, within a period not to exceed 5 years from the issuance of the first loan taken after January 1, 2004. Failure to repay the loan within the five-year period will result in the unpaid balance being declared a taxable distribution.

Chapter 92, P.L. 2007 eliminated the 4% fixed rate of interest for loans from the defined benefit plans and provided that the rate of interest will be set by the State Treasurer at a commercially reasonable rate as required by the Internal Revenue Code and permitted that an administrative processing fee may be charged for such loans. As such, effective January 1, 2008, an \$8.00 processing fee per loan was charged, and the pension loan interest rate became 3.25% per year for year 2010 and 5.25% for year 2011.

***Administrative Expenses***

The System is administered by the State of New Jersey Division of Pensions and Benefits. Administrative expenses are paid by the System to the State of New Jersey, Department of the Treasury, and are included in the accompanying financial statements.

Miscellaneous expenses and reimbursements from the System that comprise various adjustments to member and employer accounts are incorporated into the administrative expense amounts included in the accompanying financial statements.

***Commitments***

The Common Funds are obligated, under certain private equity, real estate and absolute return strategy alternative investment agreements to make additional capital contributions up to contractual levels over the investment period specified for each investment. As of June 30, 2011, the Common Funds had unfunded commitments totaling approximately \$4.8 billion.

***Use of Estimates***

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of income and expense during the reporting period. Actual results could differ from those estimates.

***Funded Status and Funding Progress***

The required supplementary information regarding the funded status and funding progress is based on actuarial valuations which involve estimates of the value of reported amounts and assumptions about the probability of events far into the future. These amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the probability of future events.

**STATE OF NEW JERSEY  
POLICE AND FIREMEN'S RETIREMENT SYSTEM**

Notes to Financial Statements

June 30, 2011 and 2010

The required schedule of funding progress presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

Actuarial calculations reflect a long-term perspective and are based on the benefits provided under State statutes in effect at the time of each valuation and also consider the pattern of the sharing of costs between the employer and members at that point in time. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations on the pattern of cost sharing between the employer and members in the future.

***Actuarial Methods and Assumptions***

In the July 1, 2010 and 2009 actuarial valuations, the projected unit credit was used as the actuarial cost method, and the five year average of market value was used as the asset valuation method for the System. The actuarial assumptions included (a) 8.25% for investment rate of return and (b) 7.20% for projected salary increases as of July 1, 2010 and 2009.

	State		Local

\*US dollar denominated securities

New Jersey state statute provides for a State Investment Council (Council) and a Director. Investment authority is vested in the Director of the Division of Investment and the role of the Council is to formulate investment policies. The Council issues regulations which establish guidelines for permissible investments which include domestic and international equities and exchange traded funds, covered call and put options, equity futures contracts, obligations of the U.S. Treasury, government agencies, corporations, international governments and agencies, bank loans, interest rate swap transactions, credit default swaps, fixed income exchange traded funds, U.S. Treasury futures contracts, state and municipal general obligations, public authority revenue obligations, collateralized notes and mortgages, commercial paper, certificates of deposit, repurchase agreements, bankers acceptances, guaranteed income contracts, funding agreements, money market funds, private equity funds, real estate funds, other real assets, absolute return strategy funds, and the State of New Jersey Cash Management Fund (CMF). The CMF is a short-term cash fund and is open to state and certain non-state participants.

The pension funds' investment in the CMF is not evidenced by securities that exist in physical or book entry form held by the pension funds.

**STATE OF NEW JERSEY**  
**POLICE AND FIREMEN'S RETIREMENT SYSTEM**

Notes to Financial Statements

June 30, 2011 and 2010

The System's investments are subject to various risks. Among these risks are custodial credit risk, credit risk, concentration of credit risk, interest rate risk, and foreign currency risk. Each one of these risks is discussed in more detail below.

Custodial credit risk, as it relates to investments, is the risk that in the event of the failure of the custodian, the pension funds will not be able to recover the value of investments or collateral securities that are in the possession of the third party. The pension funds' investment securities are not exposed to custodial credit risk as they are held in segregated trust accounts in the name of the pension funds with the custodians.

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The credit risk of issuers and debt instruments is evaluated by nationally recognized statistical rating agencies such as Moody's Investors Service, Inc. (Moody's), Standard & Poor's Corporation (S&P), and Fitch Ratings (Fitch). Concentration of credit risk is the risk of loss attributed to the magnitude of an investment in a single issuer. There are no restrictions in the amount that can be invested in United States treasury and government agency obligations. Council regulations require minimum credit ratings for certain categories of fixed income obligations held directly by the pension funds and limit the amount that can be invested in any one issuer or issue.

The 2010 tables do not include certain domestic and international corporate obligations including certain exchange traded funds (ETFs) totaling \$321,336,486, which invest in an underlying portfolio of fixed income securities and do not have a Moody's, Standard & Poor's or Fitch rating. The Police and Firemen's Mortgages and the CMF are also unrated.

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Commercial paper must mature within 270 days. Certificates of deposits and bankers acceptances are limited to a term of one year or less. Repurchase agreement must mature within 30 days. The investment in guaranteed income contracts and funding agreements is limited to a term of 10 years or less.

The pension funds invest in global markets. Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment. The market value of international preferred and common stocks and issues convertible into common stocks, when combined with the market value of international government and agency obligations, cannot exceed 30% of the market value of the pension

**STATE OF NEW JERSEY**  
**POLICE AND FIREMEN'S RETIREMENT SYSTEM**

Notes to Financial Statements

June 30, 2011 and 2010

funds. The market value of emerging market securities cannot exceed more than 1.5 times the percentage derived by dividing the total market capitalization of companies included in the Morgan Stanley Capital International (MSCI) Emerging Market Index by the total market capitalization of the companies included in the MSCI All-Country World Ex-United States Index of the total market value of the assets held by Common Fund D. Not more than 10% of the market value of the emerging market securities can be invested in the common and preferred stock of any one corporation. The total amount of stock purchased of any one corporation cannot exceed 5% of its stock classes eligible to vote. Council regulations permit the pension funds to enter into foreign exchange contracts for the purpose of hedging the international portfolio. The pension funds held forward contract receivables totaling approximately \$1.28 billion and payables totaling approximately \$1.31 billion (with a \$24.9 million net exposure) as of June 30, 2011. The pension funds held forward contract receivables totaling approximately \$1.95 billion and payables totaling approximately \$1.96 billion (with a \$13.0 million net exposure) as of June 30, 2010. At June 30, 2011, the credit ratings of the counterparties to the forward currency contracts had credit ratings of no less than A3 using Moody's rating scale.

The pension funds had the following foreign currency exposure as of June 30, 2011 and 2010 (expressed in U.S. dollars):

The pension funds' interests in alternative investments may contain elements of credit, currency and market risk. Such risks include, but are not limited to, limited liquidity, absence of regulatory oversight, dependence upon key individuals, speculative investments (both derivatives and nonmarketable investments), and nondisclosure of portfolio composition. Effective April 18, 2011, Council regulations provide that not more than 38% of the market value of the pension funds can be invested in alternative investments, with limits on the individual investment categories of real estate (9%), real assets (7%), private equity (12%) and absolute return strategy (15%). Prior to that, the overall limitation was 28% with a 7% limit on each of the individual categories. Not more than 5% of the market value of Common Fund E, plus outstanding commitments, may be committed to any one partnership or investment, without the prior written approval of the Council. The investments in Common Fund E cannot comprise more than 20% of any one investment manager's total assets.

**STATE OF NEW JERSEY  
POLICE AND FIREMEN'S RETIREMENT SYSTEM**

Notes to Financial Statements

June 30, 2011 and 2010

**(4) Securities Lending Collateral**

The System's share in the securities lending program is 26.8% and 25.7% of the total market value of the collateral as of June 30, 2011 and 2010, respectively.

The securities lending collateral is subject to various risks. Among these risks are custodial credit risk, credit risk, concentration of credit risk, and interest rate risk. Prior to July 1, 2010, the agreements with the lending agents require minimum credit ratings for certain categories of fixed income obligations and limit the amount that can be invested in any one issuer or issue, consistent with Council regulations and internal policies for funds managed by the Division of Investment. The pension funds did not lend securities from July through December 2010. As of December 2010, securities lending collateral is invested in repurchase agreements the maturities of which cannot exceed 30 days. The collateral for repurchase agreements is limited to obligations of the U.S. Government or certain U.S. Government agencies, collateralized notes and mortgages and corporate obligations meeting certain minimum rating criteria. Total exposure to any individual issuer is limited consistent with internal policies for funds managed by the Division of Investment.

For securities exposed to credit risk in the collateral portfolio, the following table discloses aggregate fair value, by major credit quality rating category as of June 30, 2011 and 2010.

(In thousands)	<b>June 30, 2011</b>		
	<b>Rating</b>		
	<b>Aaa/AAA</b>	<b>Not rated</b>	<b>Totals</b>
Repurchase agreements	\$ 847,919	—	847,919
Cash	—	5,686	5,686
Totals	\$ 847,919	5,686	853,605

Custodial credit risk for investments is the risk that in the failure of the counterparty to the transaction the pension funds will not recover the value of the investments that are in the possession of an outside party. The repurchase agreement's underlying securities are held in the pension funds' name.

As of June 30, 2011, the pension funds had outstanding loaned investment securities with an aggregate market value of \$831,618,717. In accordance with GASB accounting standards, the noncash collateral is not reflected in the accompanying financial statements. There were no borrower or lending agent default losses, and no recoveries or prior period losses during the year.

(In thousands)	<b>June 30, 2010</b>

**STATE OF NEW JERSEY**  
**POLICE AND FIREMEN'S RETIREMENT SYSTEM**

Notes to Financial Statements

June 30, 2011 and 2010

As of June 30, 2010, the System had outstanding loaned investment securities with an aggregate fair value of \$9,229,063. The program was terminated effective June 30, 2010 and all loaned securities and collateral were subsequently returned. In accordance with GASB accounting standards, the noncash collateral is not reflected in the accompanying financial statements. There were no borrower or lending agent default losses, and no recoveries or prior-period losses during the year.

**(5) Contributions**

The contribution policy is set by N.J.S.A. 43:16A and requires contributions by active members and contributing employers. Plan member and employer contributions may be amended by State of New Jersey legislation. Employers are required to contribute at an actuarially determined rate. The annual employer contributions include funding for basic retirement allowances, cost-of-living adjustments, and non-contributory death benefits. Members contribute at a uniform rate of 8.5% of base salary. The full normal employee contribution rate will be increased from 8.5% to 10%, based on Chapter 78, P.L. 2011 in October 2011.

Chapter 19, P.L. 2009, effective March 17, 2009, provided an option for local employers to contribute 50% of the normal and accrued liability contribution amounts certified by PFRS for payments due in State fiscal year 2009. This law also provided that a local employer may pay 100% of the required contribution. Such an employer will be credited with the full payment and any such amounts will not be included in their unfunded liability. The actuaries for PFRS will determine the unfunded liability of those retirement systems, by employer, for the reduced normal and accrued liability contributions provided under this law. This unfunded liability will be paid by the employer in level annual payments over a period of 15 years beginning with the payments due in the State fiscal year ending June 30, 2012 and will be adjusted by the rate of return on the actuarial value of assets.

Chapter 1, P.L. 2010, effective May 21, 2010, requires the State to make its full pension contribution, defined as 1/7th of the required amount, beginning in fiscal year 2012.

The State did not make a pension contribution for fiscal year 2011 but did make a contribution of \$7.6 million for NCGI death benefits. Also included in the employer contributions are the annual billing to local employers for their pension and NCGI contributions and Early Retirement Incentive (ERI) contributions for those who participate in the various ERI programs and other miscellaneous items that were due to the System. The amount accrued in fiscal year 2010 and due April 1, 2012 was originally \$950.7 million. In fiscal year 2011 the State made a decision to reduce the PFRS lag period between the valuation year and the contribution year from three years to two years which will bring the System in line with the other pension trust funds. This change results in a revised accrual for the bills due April 1, 2012 in the amount of \$736.1 million resulting in a reduction of \$214.6 million.

The State did not make a pension contribution for fiscal year 2010 but did make a contribution of \$7.3 million for NCGI death benefits. Also included in the employer contributions are the annual billing to local employers for their pension and NCGI contributions and ERI contributions for those who participate in the various ERI programs and other miscellaneous items that were due to the System.

**STATE OF NEW JERSEY  
POLICE AND FIREMEN'S RETIREMENT SYSTEM**

Notes to Financial Statements

June 30, 2011 and 2010

**(6) Funds**

PFRS maintains the following legally required funds as follows:

***Members' Annuity Savings Fund (2011 – \$3,091,655,674; 2010 – \$3,075,484,919)***

The Members' Annuity Savings Fund (ASF) is credited with all contributions made by active members of the System. Member withdrawals are paid out of this Fund.

***Retirement Reserve Fund (2011 – \$17,555,267,794; 2010 – \$18,599,167,672)***

The Retirement Reserve Fund is the account from which retirement benefits including cost-of-living adjustments are paid. Upon retirement of a member, accumulated contributions are transferred to the Retirement Reserve Fund from the Members' ASF. Any additional reserves needed to fund the balance of the retirement benefit are transferred from the Pension Accumulation Fund. Annually, interest as determined by the State Treasurer (8.25% for fiscal years 2011 and 2010) is credited to the Retirement Reserve Fund.

***Special Reserve Fund (2011 – \$0; 2010 – \$0)***

The Special Reserve Fund is a fund to which any excess earnings and gains from sales and maturities of investments are transferred and against which any losses from the sales of securities are applied. The maximum limit on the accumulation of this account is 1% of the market value of the investments of the System. Amounts in excess of 1% are credited to the Pension Accumulation Fund.

***Pension Accumulation Fund (2011 – \$640,920,013; 2010 – \$-1,870,288,894)***

The Pension Accumulation Fund is credited with the contributions of the State of New Jersey and other employers. Interest earnings, after crediting the Retirement Reserve Fund and the Special Reserve Fund, as required, are credited to this account. Additionally, payments for administrative and miscellaneous expenses are made from this Fund.

***Non-Contributory Group Insurance Premium Fund – Local (2011 – \$4,844,403; 2010 – \$39,774,119)***

The Non-Contributory Group Insurance Premium Fund represents the accumulation of employer group insurance contributions in excess of premiums disbursed to the insurance carrier since the inception of the non-contributory death benefit program plus reserves held by the insurance carrier. Members are eligible by statute for the non-contributory group insurance plan in the first year of membership.

**(7) Income Tax Status**

Based on a May 2007 declaration of an outside tax council retained by the Attorney General of the State of New Jersey, the System complies with the qualification requirements of Section 401(a) of the Internal Revenue Code.

2006	\$ 475,872,193	260,986,583 <sup>(2)</sup>	54.8%
2007	584,645,679	422,743,218 <sup>(2)</sup>	72.3
2008	708,019,933	647,288,920 <sup>(5)</sup>	91.4
2009	773,029,316	696,476,702	90.1
2010	818,672,171	751,395,802	91.8
2011	960,271,326	892,167,113	92.9

Notes to schedule:

- (1) Local employer contributions include contributions made by the State to provide funding for certain benefits payable to local participants.
- (2) In accordance with Chapter 108, P.L. 2003, the local statutory required contributions for fiscal years 2004 through 2007 have been reduced.
- (3) Differences between the amounts in the employer contribution column in this schedule and the amounts recorded in the financial statements and footnotes are attributed to timing differences between the 2010 actuarial valuations and the actual amounts received in fiscal year 2011. Employer contributions per this schedule represent anticipated contribution amounts determined at the time the actuarial valuations were prepared and finalized prior to the end of fiscal year 2011. The financial statements and footnotes reflect the actual amounts received in 2011.
- (4) For State, the fiscal year 2008, 2009, and 2010 contributions have been reduced in accordance with the provisions of the Appropriation Act for fiscal year 2008, 2009, and 2010, respectively.
- (5) For local, the fiscal year 2008 contribution has been reduced in accordance with Chapter 108, P.L. 2003.

**STATE OF NEW JERSEY**
