## **Independent Auditors' Report**

Office of Legislative Services  
Office of the State Auditor  
State of New Jersey:

### **Report on the Financial Statements**

We have audited the accompanying financial statements of fiduciary activities of the State of New Jersey State Health Benefit Program Funds (the Funds) as of and for the years ended June 30, 2014 and 2013, and the related notes to the financial statements, which collectively comprise the Funds' basic financial statements as listed in the table of contents.

#### ***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### ***Auditors' Responsibility***

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### ***Opinion***

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the State of New Jersey State Health Benefit Program Funds, as of June 30, 2014 and 2013, and the respective changes in plan net position thereof for the years then ended in accordance with U.S. generally accepted accounting principles.

### ***Other Matters***

#### ***Required Supplementary Information***

U.S. generally accepted accounting principles require that the management's discussion and analysis and schedules of funding progress and employer contributions on pages 3–7 and 18–20, respectively, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### ***Supplementary Information***

Our audit, for the year ended June 30, 2014, was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Funds' basic financial statements. The supplementary information included in schedules 3 through 8 (the Schedules) as listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The Schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedules for the year ended June 30, 2014 are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Management's Discussion and Analysis

(Unaudited)

June 30, 2014 and 2013

**Overall Financial Condition of the Funds**

For the SHBP – Local, total revenues recognized exceeded total expenses incurred by \$33.9 million, increasing the surplus at the beginning of the year from \$223.5 million to \$257.4 million at year end. This increase is attributable to a gain for the retired group due to favorable claims experience. Local premium rates for calendar year 2015 were set to match expected claim charges and administrative costs. For the SHBP – Education, total expenses incurred exceeded total revenues recognized by \$93.7 million, reducing the balance of net position at the beginning of the year of \$225.2 million to \$131.5 million at year end. This decrease in net position balance is due to the State contributing less than the full required retiree premium based on the established rates in order to utilize available cash reserves to meet incurred claim charges. For the SHBP – State, total revenues recognized exceeded total expenses incurred by \$11.4 million, reducing the deficit at the beginning of the year from \$153.2 million to \$141.8 million at year end. This small reduction in the deficit is due to favorable claims experience.

For the other postemployment benefit plans for State fiscal year 2014, based on the current actuarial valuation dated July 1, 2013, the State had a \$19.7 billion unfunded actuarial accrued liability (UAAL) under GASB Statement No. 43, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans, for SHBP – State active and retired members and a \$33.3 billion UAAL for SHBP – Education employees and retirees that become the obligation of the State of New Jersey upon retirement. In comparison, based on the prior year actuarial valuation, the State had a \$19.3 billion UAAL for SHBP – State active and retired members and a \$32.2 billion UAAL for SHBP – Education employees and retirees. This increase in the post-retirement medical UAAL is attributable to the State funding post-retirement medical benefits on a pay as you go basis as opposed to funding on an actuarial reserve basis. SHBP – Local fiscal year 2014 UAAL for OPEB based on the same actuarial valuation was \$13.8 billion and, for the prior year actuarial valuation, the liability was \$12.4 billion.

***(b) Contribution Requirements and Benefit Provisions***

Contributions to pay for the health benefit premiums of participating employees in SHBP – State, Local and Education (including the prescription drug programs (PDP)) are collected from the State of New Jersey, participating local employers, active and retired members, and former active and retired members who have elected to participate under the rules of the Consolidated Omnibus Budget Reconciliation Act (COBRA). The State of New Jersey provides contributions for State employees through State appropriations. These appropriations are generally distributed to SHBP – State on a monthly basis. Local and Education employers remit employer contributions on a monthly basis. Active and retired member contributions are generally received on a monthly basis.

The State, employers participating in SHBP – Local and employers participating in SHBP – Education made contributions of \$1.9 billion, \$1.2 billion and \$2.4 billion for State fiscal year 2014, respectively. For State fiscal year 2013, the State, employers participating in SHBP – Local and employers participating in SHBP – Education made contributions of \$1.7 billion, \$1.1 billion and \$2.4 billion, respectively.

Chapter 78, P.L. 2011, effective June 28, 2011, established new employee contribution requirements towards the cost of employer provided health benefit coverage. Employees are required to contribute a certain percentage of the cost of coverage. The rate of contribution is determined based on the employee's annual salary and the selected level of coverage. The increased employee contributions are being phased in over a four-year period for those employed prior to June 28, 2011 with a minimum contribution required to be at least 1.5% of salary. For those employed on or after June 28, 2011, the four-year phase-in does not apply, and contributions based on the full percentage rate of contribution are required. Under Chapter 78, certain future retirees eligible for state-paid health care coverage at retirement are also required to pay a percentage of the cost of their medical coverage determined on the basis of their annual retirement benefit.

SHBP – State provides medical coverage to qualified active and retired participants. Under Chapter 136, P.L. 1977, the State of New Jersey pays for the health insurance coverage of all enrolled retired State employees (regardless of age) whose pensions are based upon 25 years or more of credited service or a disability retirement regardless of years of service. Retirees who are not eligible for state-paid health coverage at retirement can continue in the program by paying the cost of the insurance for themselves and their covered dependents. The PDP was established in December 1974, under N.J.S.A. 52:14-17.29 to provide coverage to employees and their eligible dependents for drugs which under federal or State law may be dispensed only upon a prescription written by a physician. State employees are eligible for PDP coverage after 60 days of employment.

SHBP – Local provides medical coverage to qualified local active and retired participants. Partially funded benefits are also provided to local police officers and firefighters who retire with 25 years of service (or on disability) from an employer who does not provide coverage under the provisions of Chapter 330, P.L. 1997. Also, local employees are eligible for the PDP coverage after 60 days of employment.

SHBP – Education provides medical coverage to qualified local education active and retired participants. Members of TPAF who retire from a board of education or county college with 25 years of service or on a disability retirement receive state-paid post-retirement medical coverage. Under the provisions of Chapter 126, P.L. 1992, the program also provides state-paid coverage to members of PERS and ABP who retire from a board of education or county college with 25 years of service or on a disability retirement if the member’s employer does not provide this coverage. Certain local participating employers also provide post-retirement medical coverage to their employees. Retirees who are not eligible for state-paid health coverage at retirement can continue in the program if their employer participates in this program or if they are participating in the health benefits plan of their former employer and are enrolled in Medicare Parts A and B by paying the cost of the insurance for themselves and their covered dependents. Also, education employees are eligible for the PDP coverage after 60 days of employment.

*Actuarial Assumptions*

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future, and these amounts and assumptions are subject to continual revision as actual results are compared to past expectations. Calculations are based on the benefits provided under the terms of the plan in effect and the pattern of cost sharing between employees and the employer. Actuarial calculations reflect a long-term perspective and employ methods and assumptions that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations. A summary of the significant actuarial methods and assumptions used by SHBP – State, SHBP – Local, and SHBP – Education as of the most recent actuarial valuations dated July 1, 2013 and 2012 are as follows:

Notes to Financial Statements

June 30, 2014 and 2013

**(5) Reserves**

The Funds maintain the following legally required reserves as follows (amounts indicated in parenthesis represent net position restricted for the respective reserve as indicated):

***SHBP Reserve Fund – State (2014 – \$-141,787,828; 2013 – \$-153,167,314)***

The State uses this fund (NJSA: SHBP 52:14-17.42) to cover claims payments. Due to ongoing budget constraints, the State has not made the full required premium contributions for active members over the past several years resulting in a negative fund balance. However, the fund has received sufficient State appropriations to maintain a positive cash balance in order to pay all benefit obligations on a timely basis.

***SHBP Reserve Fund – Local (2014 – \$257,427,935; 2013 – \$223,551,953)***

The net position of SHBP – Local (NJSA: SHBP 52:14-17.42) are available to pay claims of future periods. These reserves are maintained by the fund to stabilize rates and to meet unexpected increase in claims.

***SHBP Reserve Fund – Education (2014 – \$131,492,274; 2013 – \$225,182,796)***

The net position of SHBP – Education (NJSA: SHBP 52:14-17.42) are available to pay claims of future periods. These reserves are maintained by the fund to stabilize rates and to meet unexpected increase in claims.

**(6) Contingencies**

The Funds are party to various legal actions arising in the ordinary course of its operations. While it is not feasible to predict the ultimate outcome of these actions, it is the opinion of management that the resolution of these matters will not have a material adverse effect on the Funds' financial statements.
