Do not enroll me in the POP for Plan Year 2020.

I do not wish to increase my take home pay by participating in this plan.

I understand that by signing this document, my salary that is used to pay medical and dental contributions and premiums will be fully taxed and that I will not be enrolled in the POP for 2020.

**Premium Option Plan (POP) for
Plan Year 2020**

The Premium Option Plan (POP) is a benefit available to State employees eligible to participate in the State Health Benefits Program (SHBP) under the State's Tax\$ave Program. The POP allows you to save money by paying any dental or medical contributions or premiums for your SHBP coverages with before-tax dollars; you won't have to pay federal income taxes, Medicare, or Social Security taxes on money earned which is used to pay contributions or premiums. Since you pay less in taxes through POP, enrollment in the plan for 2020 will be automatic unless you decline enrollment by completing the form on the reverse side of this page and returning it to your benefits administrator by October 31, 2019.

**A summary of the advantages and disadvantages
of the POP are shown below.**

ADVANTAGES

- Increase your take-home pay by reducing your federal taxes.
- You will not have to pay federal income taxes, Medicare, or Social Security taxes on money earned which is used to pay contributions or premiums.

DISADVANTAGES

- May reduce your Social Security wage base. For those employees approaching Social Security age, this may slightly affect your Social Security payments when you eventually collect them.
- If you participate in the POP, you will not be able to deduct your medical or dental contributions or premiums on your federal income tax return.
