## II. Description of PFRS and Other Information

### A. PFRSNJ Description

The PFRS system was created by the New Jersey Legislature in 2018 and began operations in 2019. It is a reorganization under Chapter 55 of Public Law 2018 of the original Police and Firemen's Retirement System created in 1944. The PFRS retirement system is under the supervision of the PFRSNJ Board of Trustees (Board). PFRS is a statewide governmental pension plan qualified under section 401(a) of the Internal Revenue Code ("IRC") and is not subject to Title I of the Employees Retirement Income Security Act of 1974 (ERISA). PFRS is created by statute N.J.S.A. 43:16A and administered by the Board in accordance with N.J.A.C. 17:4.

PFRS is a statewide agent multiple-employer public employee retirement system that provides retirement, disability, and death benefits to its members and their beneficiaries. At the end of 2019, the PFRS system provides retirement benefits to approximately 40,000 members, and intakes contributions from employers and approximately 40,000 active police and firemen.

**Board of Trustees:** Chapter 55 places management of the fund with a twelve member Board of Trustees. The Board is composed of union leadership, elected police and fire members, and gubernatorial appointments. The Board delegates the daily administrative functions of the PFRS system to its Executive Director. The Executive Director is responsible for employment of the System's staff and for the operation of the System within the scope of the PFRS Act and the Board's regulations.

#### **Fund Structure**

PFRS is a public trust fund that the Board has the responsibility of administering in accordance with the PFRSNJ Act. The Act establishes accounts that comprise the net assets held in trust.

### B. Budgetary Basis of Accounting

The Board prepares a detailed operating and capital expenditures budget annually. The budget is prepared on a basis consistent with U.S. generally accepted accounting principles ("GAAP").

## C. Federal and State Financial Assistance

The PFRS system does not receive Federal Assistance. It receives employer pension contributions from the State Government.

## D. Component Units

The PFRS system has no component units and is not a component unit of any other entity. However, the PFRS's financial statement will be included in the State's Comprehensive Annual Financial Report (CAFR), despite being a stand-alone agency, in, but not of the New Jersey Treasury Department.

## E. Joint Ventures

The PFRS system does not participate in joint ventures.

## F. Overview of Financial Operations

### 1) Investments

The PFRS system held investments of \$27 Billion in market value as of December 31, 2019. The asset allocation as of February 29, 2020, compared with current strategic target allocations, is as follows:

Asset Class	Actual Allocation	Target Allocation
Global Growth	57.39	59.00
Real Return	9.48	10.00
Income	18.15	18.00
Defensive	12.36	13.00

Chapter 55, transferred management of the assets of the Police and Firemen's Retirement System from the New Jersey Division of Investments to the Board. The Board members are individual fiduciaries with respect to the System and must discharge their duties solely in the interest of the members and annuitants for the exclusive purpose of providing benefits to members, retirees, and their beneficiaries.

In the present year, many of the functions which will completely be performed by the Board, and its administrative staff, are still being performed by the Division of Pensions and Benefits, and the Division of Investments, both within the Department of the Treasury. Once the Board has the staffing capabilities, the Board will be taking these functions over for itself.

The Board also appoints the investment consultants, investment managers, and Consulting Actuary, and approves the annual operating budget. The State Treasurer appoints the Custodian Bank.

- Responsibility for the investment of PFRSNJ funds is vested in the Board. The Board delegates day-to-day management of the investment program to the Chief Investment Officer (CIO) and investment staff.
- State Street Bank & Trust Company (SSB) serves as the System's Custodial Bank and Accounting Agent, and is the official "book of record" for PFRS investments.
- The System retains professional investment consultants and investment managers to assist PFRSNJ staff with the management of the PFRS investment portfolio.

## **2) Contributions**

The contribution rates for employees are 10 percent of employee gross earnings, and the employers additionally contribute into the system. The contribution rate for each city is determined annually by the System's consulting actuary, using the projected unit cost basis method. Cheiron currently provides actuarial services to the System. The actuarial valuation as of July 1, 2019 was presented at the April 2020 Board meeting.

Employee contributions are withheld from the individual's pensionable compensation and remitted to the Division of Pensions and Benefits on a monthly basis, and is reported to the Division of Pensions and Benefits on a quarterly basis. Employer contributions are paid on an annual basis and are due April 1 each year with a 30 day grace period to April 30.

Contributions Received in Fiscal Year Ending June 30, 2019	
Contributor/Fund	Amount
Employer contributions (pension fund)	\$1.196 billion
Employee or member contributions (pension fund)	\$410 million

### 3) Benefit Payments

As of December 31, 2019, the PFRS system had approximately 40,000 retirees receiving benefits. Monthly annuity payments are made primarily via ACH direct deposit, with some paper check payments issued, and totaled \$2.56 billion in 2019. Members may qualify for a deferred retirement benefit, service retirement, or special retirement depending on the age of the member and the number of years of service.

Members who become totally and permanently disabled may qualify for an ordinary or accidental disability retirement benefit.

Additionally, members may qualify for line of death benefits if they are killed in the line of duty.

### 4) Withdrawals

Members who leave covered employment may withdraw their contributions made to PFRS in a lump sum. Withdrawal payments, or refunds, issued during 2019 totaled \$7.4 million.

### 5) Administrative and Investment Expenses

Administrative expenses, and investment expenses are paid in accordance with the annual operating budget approved by the Board. In 2019, administrative expenses totaled \$10.0 million.

### 6) Fiscal Year

The fiscal year for the PFRS system begins July 1 and ends June 30 of every calendar year.

### 7) Financial Reporting

Financial statements are provided to the Board on a quarterly basis, along with budget-to-actual reports for operating expenses. The PFRSNJ Board has implemented all applicable Governmental Accounting Standards Board (GASB) Statements in its Dec. 31, 2016 financial statement.

Additional information on the PFRS system's finances can be found in the Division of Pensions and Benefits Comprehensive Annual Financial Report ("CAFR") found on the Division of Pensions and Benefits Website.

### III. Nature of Services Required

The Board by way of the Division of Pensions and Benefits has implemented GASB Statement No. 67, Financial Reporting for Pension Plans as of fiscal year 2014 and GASB Statement No.68, Accounting and Financial Reporting for Pension Plans as of fiscal year 2015. The Board will have a separate external audit unit that audits, on a yearly basis, the census information of a representative group of local townships and municipalities and the State of New Jersey on a rotating basis. Examples of previous year GASB 67 reports are available at <https://www.state.nj.us/treasury/pensions/gasb-notice.shtml>. The applicable funds are PFRS.

For GASB Statement No. 68 the Vendor {Contractor} will be required to issue a separate audit report which will have a schedule of the individual employer allocations and pension amounts for each participating local employer and the State of New Jersey. Examples of these reports are available at <https://www.state.nj.gov/treasury/pensions/gasb-notice.shtml>. The applicable funds are PFRS.

The Board manages the funds of the PFRS System including administration of the system and its assets. It is in but not of the Treasury Department. Currently DOI invests a significant portion of the pension funds' assets in various securities while the remaining funds are held as cash and cash equivalents to pay liabilities. DOI invests the assets of the PFRS through the use of common trust funds. The assets of those pension funds are combined and invested in Common Fund D (publicly traded securities), Common Fund E (alternative asset and global diversified credit funds), and the State of New Jersey Cash Management Fund. P.L. 2017 Ch, 98 created Common Pension Fund L to receive the lottery enterprise contribution on behalf of certain State-administered retirement systems. On a monthly basis, funds are transferred into Common Pension Fund L on behalf of the three participating plans, and then transferred to each of the plans' CMF accounts. Investments managed by DOI are governed by the State Investment Council Regulations, which will be superseded by the Board's own investment regulations.

As with all pension funds, there must be actuarial assumptions that form the basis for the return on investment and the disbursement of benefits. Such is the case for the State funds. DOP&B has contracted with actuaries to perform annual actuarial valuations for each of the pension trust funds, until such time as the Board takes this function over and hires its own independent actuary. The actuaries for the pension trust funds also prepare annual actuarial valuations to meet financial reporting and disclosure requirements under GASB Statement 67 and 68. Experience studies are conducted every three (3) years for all Pension Trust Funds.

The official book of record for the investments of the pension funds and CMF is maintained by the custodian, State Street Bank. The official book of record for all other funds is the DOPB's ledger system.

Audit work under this RFQ may start on approximately May 15 of every year when the first postings become available for the third quarter; audit work cannot begin until the Vendor {Contractor} has met with the Audit Committee. Draft and final financial statements for each respective fund or report are due in accordance with the schedule in Section 3.6. - The Firm shall provide information on the specific public pension plan, government auditing, and SOC 1 Type 2 experience for each person. In addition, include information on relevant continuing professional education for the past three (3) years.
- The Firm shall indicate how the quality of staff over the term of the agreement will be assured. This should include turnover rates experienced on engagements and at the Firm during the last three years.
- The Firm shall provide the Firm's policy for rotation of the audit partner, concurring review partner, manager, supervisory staff, and technical resources.

Engagement and concurring partners, managers, other supervisory staff, and specialists may be changed if those personnel leave the Firm, are promoted or are assigned to another office. These personnel may also be changed for other reasons with the express prior written permission of PFRSNJ. However, in either case, PFRSNJ retains the right to approve or reject replacements.

Consultants and Firm specialists mentioned in response to this RFP can only be changed with the express prior written permission of PFRSNJ, which retains the right to approve or reject replacements. Other audit personnel may be changed at the discretion of the Firm provided that replacements have substantially the same or better qualifications and experience.

## 3) Business References of Other Audit Clients

- The Firm, or its proposed lead audit partner, must confirm that it has conducted at least two similar engagements for public pension systems with assets of at least \$5 billion in the past five years.
- For the Firm's office that will be assigned responsibility for the audit, list three to five of the most significant engagements performed in the last five years that are similar to the engagements described in this RFP (especially multi-employer public pension systems subject to GASB statements). Each should include the following:
  - Client's name and address
  - Principal client contact name, title, email, and phone number
  - A brief statement on scope of work

By submitting a proposal, the Firm authorizes PFRSNJ to contact the clients listed for comments regarding the audit services.

## 4) Specific Approach for the Engagements

The proposal should set forth a work plan, including an explanation of the audit methodology to be followed, to perform the services required in Section III of this RFP. Proposers will be required to provide sufficient information on their audit approach and their expertise to conduct a quality audit that encompasses a diversified investment portfolio, annual actuarial valuations for participating employers, as well as tax and information technology implications.

## **5) Identification of Potential Audit Issues**

The proposal should identify and describe any anticipated potential audit issues (including those due to changes to regulations and accounting and auditing standards), the Firm's approach for resolving these problems, and any special assistance requested from PFRSNJ.

## **6) Attendance at PFRSNJ Board Meetings**

The Firm is required to attend PFRSNJ Board meetings to conduct audit planning (typically in July month) and to present the final audit reports in March (month). The Firm should provide an affirmative statement that its representatives (minimum of engagement partner) will attend required Board meetings.

In addition, the Board may request that the Firm attend additional meetings; PFRSNJ will provide at least 30 days prior notice of requested meeting date(s).

## **7) SAS 114 Board Communication and Client Status Report**

The Firm is required to provide sample client documents, including the SAS 114 Board communication and a client status report.

### **C. Fixed Fees and Hourly Rates**

#### **1) Authorized Official**

The fee proposal should include a certification that the person signing the proposal is entitled to represent the Firm, empowered to submit the proposal, and authorized to enter a contract with PFRSNJ.

#### **2) Total All-inclusive Fixed Fee Pricing**

- The fixed fee proposal should contain all pricing information relative to performing the engagements as described in this RFP on an annual basis for all five years, for the financial audit and attestation examination. The total all-inclusive fixed fee is to contain all direct and indirect costs, including out-of-pocket expenses.
- A similar schedule should be completed for each year of the contract term and for the financial audit and attestation examination engagements. PFRSNJ is not responsible for expenses incurred in preparing and submitting a response to this proposal. Such costs should not be included in the proposal.

#### **3) Hourly Rates of Staff**

- The fee proposal should include a schedule of professional hourly rates that support the fixed price.  
The schedule should include rates by staff level (partner, manager, supervisory and staff) multiplied by the number of hours anticipated for each.

#### **4) Out-of-Pocket Costs**

PFRSNJ will not reimburse for out-of-pocket costs. Out-of-pocket costs should be included in professional fees.

## **5) Additional Services**

If it should become necessary for PFRSNJ to request the Firm to render any additional services to either supplement the services requested in this RFP or to perform additional work as a result of the specific recommendations included in any report issued on this engagement, then such additional work shall be performed only if set forth in a separate engagement letter or statement of work between PFRSNJ and the Firm. Any such additional work agreed to between PFRSNJ and the Firm shall be performed at the same hourly rates as set forth in the schedule of rates.

## **6) Manner of Payment**

Firm shall not invoice PFRSNJ more than monthly. Invoices will be paid within 45 days of receipt.

## **v. Term of Engagement**

### **A. Engagement Length**

- 1) The Board will enter into a five year Master Services Agreement with annual engagements subject to the satisfactory negotiation of terms, including a price acceptable to both the Board and the selected Firm.
- 2) The Board reserves the right to terminate any engagement at any time, including all future engagements, with or without cause, upon 30 days written notice to the Firm, in which event compensation will be paid only for services rendered through the date of termination.

### **B. Subcontracting**

If the Firm plans to subcontract any portion of the audit work, that fact, and the name of the proposed subcontracting Firms, must be clearly identified in the Firm's response to the RFP. The subcontractor must be approved by the Board. Following the award of the audit contract, no additional subcontracting will be allowed without the express prior written consent of the System.

## **VI. Notice Regarding the New Jersey Law and the New Jersey Open Public Records Act**

PFRSNJ is a statewide public retirement system created under the laws of the State of New Jersey, and as such, there are constitutional and statutory limitations on the authority of PFRSNJ to enter into certain terms and conditions. Firms participating in the proposal process understand and agree that PFRSNJ is limited on terms and conditions it may accept, including, but not limited to, terms and conditions relating to liens on PFRS assets and property; granting control of litigation or settlement to another party; liability for acts or omissions of third parties, payment of attorneys' fees, dispute resolution; indemnification obligations; jurisdiction, venue, and confidentiality. The contract will be construed under New Jersey state law.

Firms submitting proposals pursuant to this request should understand and acknowledge that their bids may be subject to release under the New Jersey Open Public Records Act. However, certain information may be confidential and fall under exceptions to disclosure, including, but not limited to proprietary information, trade secrets, audit working papers, and where disclosure might cause substantial competitive harm. If a Firm believes its proposal contains confidential information in those categories, the Firm must specifically document this on either the top or bottom of each page that contains the information the Firm considers confidential, and must describe the specific nature of the exception to the New Jersey Open Public Records Act that the Firm believes applies. A general disclaimer that the bidder's response contains confidential information will not be sufficient to meet this requirement. This will not ensure that these provisions will be determined to be confidential under state law. Firms submitting proposals should be prepared to defend any claimed exemption under the New Jersey Open Public Records Act.
